Raymond Recorder

Vol. 28 — FRIDAY, MARCH 8 1929 — No 5

Raymond Wins Hockey Game

The third inter-town hocky game to be played on the Raymond Ice palace was between Magrath and Raymond Thursday, February 28, at 8:30 Although the score ended very one sided it doesn't indicate the "play" of the game. The Raymond squad seemed to get the breaks and it gave them the third successive win over Magrath.

The ice was heavy at the out set and hardened up considerably before the finish. Melcheon for Raymond was the star man scoring five of the winners eight. The first period opened fast with Raymond scoring after four minutes of play. The Magrath boys back checked hard but lost out on the superior passing of the Raymond forward line. Quite a stiff breese was blowing which hindered the visitors considerably. The score at the end of the first period was 5—0.

The second period was evener and some very good hocky was played. Both goolies turned in somo super work and saved many that seemed doomed to bulge the net. Raymond scored once during the second period.

During the third period both teams were showing the lack of condition. The Magrath defence did some excellent work and broke up many dangerous rushes. The visitors center man was dangerous during the whole game and worried the Raymond defence considerably.

The line up was as follows:

Magrath: R. Minnion, goal; center, L. Ehert; forwards, L. Smith, C. Card and E. Hudson; defence, N. Blaxall and R. Clifton.

Raymond: McMullin, goal; center, Melcheon; forwards, Willis and Archie Terry; defence, Dumlas and McBeath; subs Afton Terry, E. Christensen and W. Chrisensen.

BETTER SEED CAMPAIGN PLANNED

The use of better seed grain will again be emphasized for the coming spring throughout Alberta as a result of the efforts of the committee recently appointed by Hon. George Hoadly, Minister of Agriculture, from representatives of a number of the better farming interests of the province. Following a similar campaign which was conducted last season a very marked improvement was noted in the quality of seed used for the 1928 crop and it is hoped that this improvement can be still further increased in 1929. A number of radio addresses are being arranged and through the courtesy of the press a number of articles written by prominent grain growes will be given wide circulation bringing to the attention of farmers a number of defects in seed grain which should be avoided if their crops are to give the best possible yield.

The efforts of the committe will he centered on the period from March 11 to 16th. which will be known as "Better Seed week." The personnel of the commettee includes H. A. Craig, Deputy Minister of Agriculture Chairman; D. A. McCannel, Publicity commissioner, Sec.; Major H. G. L. Strange, representing the Canadian Seed Growers' Association and D. H. Galbraith, M. L .A., and Don Bark representing the Alberta Seed Growers' Association; G. M. Stewart of the Dominion Seed Branch; F. H. Reed of the Dominion Experimental Farms Dr. A. S. Aamodt, University of Alberta, and W. J. Stephen, Provincial Field Crops Commissioner.

Vary satisfactory returns were received for 30 parcels of Irrigated land disposed of by auction at Taher on Saturday last. The record price of the sale was $96.00 per acre paid by N. Jensen for a parcel of land in the vicinity of Barnwell.

Born—To Mr. and Mrs. Stewart S. Rutt, a girl, February 21st.

MISS ANNIE SATERLEY PASSES

Miss Annie Satterley peacefully passed away here last Saturday, March 2nd. at the ripe old age of 70. She was the sister of Mrs. Fred Ralph. Miss Satterely has been a resident of Raymond for the past five years.

The funeral was held at the Union Church, Tuesday March 5th. the house being filled by those paying their last tribute to a departed friend and relative. Floral tributes were as follows, Relatives of the departed, Mr. and Mrs. W. Burnett, Mr. and Mrs. C. Everson, Mr. and Mrs. R. Webster, Mr. and Mrs. J. Hervey, Mrs, Dearden, Jensen Brothers, Womens Institute, Mr .and Mrs. Delos Lund, Mr. and Mrs. Frank Shaw, Mr. and Mrs. W. Barret, Mrs. Elsie Cain , Mr. and Mrs. A. Hicken, United Church, Mr. and Mrs. Wm. Clemis, United Sunday School, Ladies of the United Church Mr. and Mrs. W. Barrett, Mrs. G. Linkous, Miss M. Bennett, Mr. and Mrs. O. S. Longman, Mr. and Mrs. B. Nilsson, Mr. and Mrs. C. Nilsson Brewerton Family, Mr. and Mrs.H. Stevens, Ludbury, Ontario.
Cars; Deloss Lund, Valve Hagie, O. S. Longman, Mr. R. W. Tollestrup, Mr. Bert Nilsson, Mr. Chas. Fawns.

The family wish to thank all for the beautiful flowers and all those who assisted in any way.

Mr. Hardie Bryner has recently taken over the Singer Sewing machine agency from S. B. Card. Watch for future ads along this line.

Judging from all the new tractors that have recently arrived here the poor old grey mare is going to get a life long pension.

Mrs. D. H. Kinsey and Mrs. Geo. Paris left last Monday for Medford, Ore., where the latters husband Mr. Paris in engaged in the chain store business.

THREE INSTITUTES OF CO-OPERATION TO BE HELD

Arrangements are now being made to hold Institutes of co- operation at three points in the province in 1929 imilar to that conducted in Edmonton last season. Lethbridge, Olds and Vermilion have been selected as suitable points for these meetings which will be held during the week of June 24 to 29. The services of a number of outstanding authorities on various phases of co-operative activity have been secured to address these meetings and to bring to attention of Alberta farmers recent developements in co- operative work in many sections of the country .

Local U. F. W. A. Reorganizes

Mrs. Relva Ross Elected President

The U. F. W. A. met at the home of Mrs. Irene Redd February 28th. for the purpose of reorganizing. The following officers were elected for the coming year: Relva Booth Ross president; Manila Meldrum, 1st. vice president; Alice Larsen, 2nd. vice president; Hattie Wooley, sec-treas., with the following directors, Irene S. Redd Phoebe Evans, Emma Nilsson, Nell Fisher and Mary Wall. At the conclusion of the meeting refreshments were served by the hostess, assisted by the returning officers.

March 6th. meeting of the Board of Directors was held at the home of Mrs. Ross and the work for the coming year was discussed. The directors were assigned to their different fields and will immediately begin research for lectures to be given during the year. The next meeting will be devoted to co-operative marketing, The membership committee of the U. F. A. met with the W. A. officers and started plans for a membership drive All members of both organizations will meet at the town hall Monday, March 11, at 8, p.m. to complete arrangements for a drive.

The work of the organization, as being sent out from headquarters is more vital and interesting than ever before and the local contemplates a most profitable year.

"Home Came Ted" Scores

The Second Ward Mutual Players presented the mystery Comedy "Home Came Ted," last Wednesday evening at the Opera House to a large and appreciative audience.

The show was a clean clever comedy full of fun provoking situations that kept the audience interested throughout. The feature of the play was the character acting. The roles were nearly all character parts and were evenly balanced. The cast succeeded admirably in putting over these character portrayals and if any one player deserves credit more than another for the success of the production it must go to Joe McLean in the character role of "Skeet," the big hearted boyish clerk at the Inn. The committee in charge are to be complimented on the appearance of the stage.

T. O. KING TO AGAIN PILOT RAYMOND BOARD OF TRADE

The Raymond Board of Trade met at the Club Cafe last Wednesday in their annual meeting. All officers and committees were re-elected by acclamation. A general review of the years work was discussed. The Board of Trade has grown to be a very important organization and is well supported. They tell us there is still room for more members so let us boost. EVERY MAN A MEMBER this coming year. There will be numerous important problems to discuss this coming season, and a keen interest in civic welfare is expected from the people.

Hoover Inaugerated

Thirty first President of The United States was sworn in last Monday amid cheers of thousands of spectators. Veritable millions listened to the entire proceedings as it was broad cast over the American continent and forlegn lands.

People sitting by their fire-side were able to see in their minds eye every thing that took place at the Capitol even to the huge parade that was four miles long. The military bands that passed the microphone, a complete description of the soldiers, sailors, guns, uniforms, horses etc. Every movement of the President elect was given as well as his speech and many others.

A drenching rain blanketed the whole affair but this did not prevent Pres. Hoover and the first lady of the land Mrs. Hoover from riding in an open car that those eager onlookers might steal a glimps of those honored guests on this occasion.

This broadcasting feat was by far the greatest accomplishment along this line in radio history . Short wave transmitters sent the proceedings to foregn lands where they were picked up and rebroadcast. For the first time in history the people were privileged to hear the voice of a commanding officer 5000 feet in the air, fairly imagine soaring above the thou amid the roaring engines. One could sands of spectators below, and carefully watching controles while talking to veritable millions over the whole earth. The sky was full of planes of all descriptions as well as the famous Los Angles and others of that type. Not only was all this broadcast but the movie camaramen along with the talkie devices recorded every thing so that in future years the coming generations can review these proceedings.

"Canada Among The Nations"

(As given by)

Miss Orphia Vance

When on November 11th., ten short years ago, the battle thunder ceased, the war lightning died away, the breaking clouds revealed, flaming in the forehead of the dawn, a glorious constellation, and brightest of those magnificient stars and nearest her matchless mother, Britain, shown Canada among the Nations, waxing as men gazed.

And whence arises the radiance with which our country shines? Politically, economically, and socially, Canada is a rising young nation among the nations.

Her light politically has been only lately observed, for rights she has long possessed were but recently formally noted. Her broad and ill-known regions, prior to confederation, men viewed as nebulous star-mist, a wide and hazy perhaps. After her birth as a nation they deemed her a cumbersome satellite; yet her part in the Treaty of Washington, in the Franco-Canadian Treaty, in the War in South Africa, forbade their ignoring her.

But they still were to learn of Canada. When Canadian Pienipotentiaries sat and signed at Versailles, when Canada joined the League of Nations and freely spoke and voted, proud nations realized they needs must make room for an equal. Then convened the momentous Imperial Conference of 1926 and in time it published abroad; first, that in the matter of making treaties Canada had full power; second, that the governor General of Canada is only a viceroy; third, that with all nations including Britain, Canada will deal through ambassadors. Then it issued forth that epoch making declaration on national status within the Empire.

That Bill of Rights, that Empire Magna Charta, left nothing to be desired, for anything that could be desired must of necessity follow. Yet the more of this freedom we gain, the nearer we draw to our Mother, the nearer too to our sisters, bound by heart-felt ties, stronger than triple steel. Seeing and knowing these things impartial men concede that Canada radiant with light from that mother, with light from her splendid sisters, burns moreover with her own majestic light, a brilliant fixed star. Thus we see is Canada, considered politically, a nation in very truth, as free, as self-determined, as dignified as any sovereign state that lifts its head on earth.

How does she stand in other ways among the nations? Does she shine economically? We shall see.

It was ever the way of man to dream of a better land-away there, some far Cathay, some cloudland of golden peace and hope. Today the wistful eyes are turning to Canada the last great West, the new Eldorado of the North. One hundred and fifty thousand miles of well kept highway, forty thousand miles of far flung railway,unnumhered thousands of miles of reaching waterways lead countless tourists yearly to our wonderlands of play. To British Columbia's earthly paradise, to Prince Edward Island's cool and restful heaches to the sunny days and refreshing starlit nights of the Hinterlands of the Prairies, to the scenic glories of our twenty five thousand square miles of matchless parks they come, to be close to nature in her virgin loveliness. Hither the sportsman come, for the Bighorn sheep that scale our heights, for the furtive creatures that range our wilds where the moose and carihou roam, for the wary myriads that sport our numherless lakes and streams. Already they leave with us three hundred millions a year and they go away delighted to scatter the fame of Canada, the hospitable, the playground of America.

And while their eyes were devouring her beauties they were nowise closd to her wealth. Under the luring land for vacation they saw a fruitfull field to invest in our forest regions, in our varried mining areas, in our tar sand reaches, in our gas and oil bearing stretches ,in our countless torrents foaming with power. Have they not seen our marvelous resources, seen too, our transportation and communication facilitis, seen and found them ample? Have they not read that among all nations Canada greatfully stands, seventh for estimated national wealth, third for per capita wealth, eighth in government revenue, and one of the only four with a surplus on current account. They know then our government finance is strong. Do they not likewise read of our international trade, that in volumn of trade we are fifth, in per capita trade we are second, while for favorable trade balance we are seventeen million dollars greater than last year, when we were first in all the world? They know then our trade is sound. Then must they know moreover that of the four fundamentals of financial greatness Canada with her natural resources marvelous with her transportation facilities, ample, with her government finance strong, with her trade sound has in high degree, every one.

(To be continued)

The Great-West Canadian Folksong, Folkdance and Handicrafts Festival, to be held at Regina, March 20-23, will not be devoted entirely to the cultures of other than people of British origin, notwithstanding that eighteen different races will be represented. Here we have some of Jean Gauld's pupils in a Welsh Folk Dance. Scotch and English folk-songs and dances will also be interpreted, and the Irish, too.

Here and There

(250)

In 1918 the Canadian Pacific Railway's tax bill was $1,382,000; in 1927 it was $7,858,000, an increase of 482 per cent, working out at $20,160 per day, $740 per hour, or $14 per minute.

Dean Laird of Macdonald College St. Anne de Bellevue has, during the past five years, conducted over fifteen hundred people through the west. This year he is planning a sixth all-expense tour with specie' train accommodation.

The Jersey cattle sale of B. H. Bull & Son in Toronto the other day resulted in the highest average prices for the breed yet recorded in the Dominion. Seventy-six animals averaged $556. This included many yearling heifers and young bulls. The top animal, Brampton Bay Xenia, sold for $8,000. This is the third highest price ever paid for a Jersey cow in North America.

Running down a timber wolf with a railway locomotive was the unusual sport tried near North Bay recently when a C.P.R. light engine bagged a 90 pound specimen. Engineer M. Lafontasie on rounding a curve saw the wolf on the tracks a short distance ahead, and opening the throttle, succeeded in striking the beast with the pilot steps. Conductor W. G. Watling ran back and finished off the animal with a poker. A bounty is paid on wolf skins by the government as the animals are a menace to game and livestock.

Canada now holds the world record for winter cruises. With one cruise around the world, another to South America and Africa, a cruise to the Mediterranean and three to the West Indies this season, the red and white chequered house flag of the Canadian Pacific is seen in nearly every important port in the world. Next season another cruise is to be added, making two to the Mediterranean, and extensive additions will be made to the itinerary of the "Empress of Australia" on her seventh cruise around the world, starting December 2nd.

The interest of the Prince of Wales in Canadian affairs was demonstrated recently when, following his speech at Mansion House, in London, he visited the British Industries Fair, and spent some time in examining the exhibits of the Canadian Pacific Railway. He took great interest in the moving train models and commented upon the artistic nature of the round the world cruise working model. Her Majesty the Queen, and Prince George passed along the same gangway and showed great interest in the displays.

One of the most colourful and interesting events of the winter season in the west is scheduled to take place in Regina on March 20-23 next when the Great West Canadian Folksong, Folkdance, and Handicraft's Festival will be held in the Saskatchewan Hotel in Regina. Over twenty nationalities will be represented in the musical and dance programme and in the exhibits of handicrafts, and a number of artists from the east will be present. The concerts are being arranged by the Canadian Pacific Railway in co-operation with the Conservatory of Music of Regina College.

The Red Rose Tea guarantee means what it says. If not satisfied return the unused part in the package and the grocer will refund your money. 79

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good

In the best package—Clean, bright aluminum

Radio Broadcasting In Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada. That Commission, headed by Sir John Aird, is at present in Europe studying the methods employed in Great Britain and some of the continental countries. It proposes to also study the methods followed in the United States, and, later, will hold public sittings throughout Canada with a view to obtaining the opinions of Canadian citizens.

The importance of this Commission's work can hardly be overstated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the least possible delay.

The question that naturally arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, if not through actual ownership and management of Canadian moving picture theatres, at least through the making and distribution of the films that are shown in this country. There can be no successful denial of the assertion that because of this control of films it is possible for United States ideas, sentiments, enterprises, modes of living, and general propaganda of all kinds, to be insiduously injected into the lives and thoughts of the Canadian people. In a word, one of the most powerful agencies for the dissemination of ideas throughout Canada is in the hands of private and wealthy corporations in a foreign country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from the effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests. Good programmes are nationally broadcasted, but they are paid for through advertising sandwiched in at intervals throughout the programmes. All this material, specially prepared for United States consumption and to meet the requirements and promote the interests of United States business, is carried through the air into hundreds of thousands of Canadian homes every day in the year.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the resources to finance the same type of high class and expensive programmes offered in the United States. Canadian national advertisers have not the same large market to appeal to, and consequently cannot afford to spend tens of thousands of dollars in radio advertising.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising, to the system which finds favor in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcasts?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop as perhaps few even now imagine. It will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

Many Divorce Cases

With a marked increase in petitions within the past week, the senate divorce committee has the largest accumulation of divorce cases in history. The number so far is 214, with 188 from Ontario and 26 from Quebec. Wives seeking divorce in 121 cases and husbands in 93.

Minard's Liniment for the Grippe and Flu.

The Porcupine gold area in the District of Cochrane, Northern Ontario, occupies first rank among the gold producing areas in Canada.

Covered Everything

Candidates for political office, successful or otherwise, who are required by law to file campaign expenses returns, may be interested in this particularly succinct one filed in Massachusetts: "Paid nothing, promised nothing, got nothing."

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

At the Paris law courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Canada's Climate Attractive

Even Wicker Weather Is Enjoyed By Majority Of People

The Montreal Star says: "It has been the fashion for many years to quote Canada as a wintry land. The habit has persisted, despite the actual facts regarding our climate, which probably presents the widest latitude in conditions of any country in the world today. But just now Europe is having a taste of what a really hard winter can achieve. Steel bridges have been cracked in two by Arctic temperatures of a severity almost unknown in modern records. Shipping in the north is icebound, and even the Black Sea is beginning to freeze over—an event unrecorded within living memory.

Now if the people who are at present suffering so acutely were in Canada, they would be enjoying themselves. We have not been attacked by an unprecedented cold weather, and the general conditions throughout the country have not been such as to cause any discomfort. Indeed, there is good ground for utilizing the attractiveness of our climate as a drawing card for intending immigrants, instead of frightening them with lurid pictures of winter of an Arctic character. A little more truth, and a little less florid rubbish, would help immigration better than lantern slides and flaming posters on the walls."

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Peace River Settlement

A Million Acres Of Land Taken Up By 5,000 New Homesteaders

Approximately one million acres of land were taken over last year by 5,000 new homesteaders in the Peace River country. The Rt. Rev. E. F. Robbins, D.D., Bishop of Athabasca, stated in an address before the Empire Club at Toronto. "People ask me if the country will bear it," he said. "I fancy it will bear it for about 20 years at that rate."

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50. Try them today.

Where Nobody Is Young

Nobody is young in the little village of Bursledon, Hampshire. The inhabitants boast that their aggregate age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Bursledon was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

A Power Of Its Own. — Dr. Thomas' Eclectric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Use Minard's Liniment for the Flu.

Papered With Postage Stamps

Inn Near Bognor, England, Is Known As Stamp House

Near Bognor, where the King has been removed for his convalescence, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are looped from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them, it is believed as a result of a wager. Under the mellow varnish there must now be hundreds of thousands; and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring waste in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of purely-vegetable, harmless Fletcher's Castoria makes the most fretful, feverish baby or child comfortable in a jiffy. A few doses and he's digesting perfectly and gaining as he should. To get genuine Castoria, look for the Fletcher signature on the wrapper.

Recipes For This Week

(By Betty Barclay)

NEW YORK SALAD

4 slices pineapple.
½ cup celery.
½ cup nuts chopped.
2 oranges.
Cream mayonnaise.
Lettuce.

Arrange slices of pineapple on nests of lettuce leaves. Cut celery in slender strips, one and one-half inches long, and mix with nut meats. Pile in centre of pineapple, and garnish with four sections of orange, free from membrane, laid symmetrically on pineapple. Pass dressing separately.

BOILED CAKE FROSTING

1 cup sugar.
⅓ cup orange juice.
Grated rind of one orange.
1 egg white.

In a smooth agate saucepan put sugar and orange juice and rind, mix well, and boil, being careful not to stir or disturb syrup until it will spin a long thread when it drops from the tip of spoon. Lift gently from fire, and pour slowly, while beating vigorously with a strong egg-beater, in a fine stream onto egg white which has been beaten until light but not stiff. Continue beating until frosting is stiff enough to stay in place, pour all at once onto cake and spread over surface with a few movements of a large, flat knife.

Minard's Liniment prevents Flu.

Standards Of Greatness

Wealth Or Titles To Judge Of An Individual's Pre-Eminence

The mind of the average American is a curious mixture of materialism and sentiment, and we must bear those qualities in mind when we criticize him. He has a great big heart and a keen eye for the almighty dollar, which is, for him, to all intents and purposes, the mark and emblem of a man's success in life. Here, in Great Britain, titles, honors, orders and decorations are the rewards for pre-eminence. In America there is no "honors list." The only list that counts is the yearly statement of income tax paid by every citizen and published far and wide so that all can see how a man has risen above his fellows. No wonder, therefore, that everyone strives unceasingly to get rich.—Sir George Armstrong in The London Observer.

Strain Of City Life

The stress of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the past in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcars and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

Swing Of High Buildings

The Eiffel Tower (984 feet) swings as much as three feet in a heavy gale; but the Woolworth Building (792 feet) and other tall sky-scrapers do not move more than one and a half inches in high winds.

Just Right for This Weather

SHREDDED WHEAT

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk

Made by The Canadian Shredded Wheat Company, Ltd.

Need New Terminal Station

Frederick Palmer Recommends New Station At Montreal For C.N.R.

It is absolutely necessary to provide suitable passenger station accommodation for the Canadian National Railways at Montreal, says Frederick Palmer, the well known British railway terminal expert, whose services were retained by the government to study the matter of furnishing the eastern metropolis with more commodious terminal facilities for the Canadian National Railways and at the same time survey the possibility of a joint station for the C.N.R. and the C.P.R. Mr. Palmer's report to the minister of railways was made public.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Eclectric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

The Value Of Birds

Only Protection Country Has Against Insect Enemies

It is estimated that 10,000 caterpillars could destroy every blade of grass on one acre of cultivated land. An insect-infested tree may contain 12,000,000 aphides. The bird population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

There are places in India where there are about 600 inches of rain in some years.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields

The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta wells for 1928, is placed at 489,531 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the Turner Valley field, in Southern Alberta, contributed 410,623 barrels of naphtha, and 70,734 barrels of crude oil, the remaining 8,174 barrels coming from the Wainwright field. The total production of natural gas for the province in 1928 is placed at 14,198,959 million cubic feet as compared with 12,883,801 million cubic feet in the previous year.

Fishing With Power

Electricity has voided the use of fishing nets in many parts of Germany. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface where they are gathered by these modern fishermen.

FLU

Claims Many Victims in Canada and should be guarded against.

Minard's Liniment

Is a Great Preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

The family album is coming back. it is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Near Cardiff, Wales, road repairpairers have placed a sign reading. "A car on the road is worth two in the ditch."

There are 209 rooms in Buckingham Palace.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. *But it's just as important to know that there is only one genuine Aspirin.* The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

German Aerial Expedition Will Again Attempt Conquest Of the Arctic This Spring

The conquest of the Arctic will again be attempted this spring. Plans for a circuit of the Arctic regions by the German airship LZ-127 have been revealed by Capt. W. Bruns, a German member of the "Aero Arctic," an international scientific organization, who visited officials of the Interior Department seeking their co-operation.

The expedition will be undertaken within the next few months, when the sun in the far north will shine 24 hours a day and the expansion of the gas in the airship will be obviated.

The airship is being lent by the German government, while the Russian government, by erecting a mooring mast at Leningrad, is giving assistance.

An effort will be made to map certain regions in the north. Observations will be made of sea depths and weather conditions.

The "Aero Arctic" foresees the possibility of regular air routes being established between points in the Arctic circle. Another suggested is Yokohama and Vancouver, by way of the Aleutian Islands.

The airship will start from Leningrad, thence to Kolan, on the Murmanks coast, to Franz Joseph Land, across the Canadian sector to Nome, Alaska, where it will be re-provisioned, thence to Wrangel Island finally over the Polar basin.

Officials of the Interior Department are considering the possibility of sending a Canadian scientist on the expedition.

School Attendance

2,291,720 Students Are Enrolled In Educational Institutions Of Canada

The number of students enrolled in the educational institutions of Canada was, according to the latest survey, 2,291,720. These included 2,022,729 in ordinary publicly controlled day schools, 102,668 in technical and evening schools, most of them under public control; 71,468 in private or independent schools; 42,546 in universities and colleges; 3,589 in preparatory courses, or schools affiliated to universities and colleges, in addition to those in private schools. The remainder were in business colleges, normal schools and other scholastic institutions.

The educational standing of the enrolment was 1,932,963 in elementary grades, and 300,149 in secondary or higher grades. These do not include the greater part of night school pupils.

The expenditure on public educat- during the year 1926-27 is given as $125,876,375.

Fox Ranching Problems

Fox raisers and particularly beginners would do well to secure from the Publications Branch of the Department of Agriculture, at Ottawa, a copy of the first report of the Experimental Fox Ranch that has been operated in Prince Edward Island during the past three years. The ranch as described in the report is a model that might safely be followed. Problems of exercising, feeding, treatment for parasites and health are dealt with in a helpful way.

Cable Used During War

The post office cable from Peterhead to Russia, which was of great service during the War, has been dismantled. At one time a staff of forty-five was employed in handling messages at the Peterhead end of the cable, but this number gradually dwindled as the service fell into disuse.

Making a fool of a man is one job woman can beat nature at.

"Eugene, shall we buy a wireless set with a loud speaker?"

"Are you mad? Haven't we your mother with us?"—Moustique, Charleroi.

Unearthed Evidence Of Mighty Battle

Last Stand Of Prehistoric Giant Against Buffalo Found In Africa

Harking back into primordial existence on the Dark Continent, road makers working in a quarry at Springbok Flats, north of Pretoria, South Africa, unearthed evidence of a mighty battle in the dim past between an extinct species of giant buffalo and a powerful, giant-like primitive man. Indications from the shattered bones of man and beast which were found lying close together in the same stratum were that the man had been trampled to death by the buffalo in some remote age.

Most of the man's skull, a majority of the longer bones and parts of the hands have been recovered. The buffalo's remains also indicate that he died a swift and violent death, probably due to injuries inflicted on him by the man. The Johannesburg Museum director believes that the hunter and the hunted died almost simultaneously.

The man is officially described as "a powerful, large-sized man not closely related to any of the Negroid races." The size of the buffalo, as estimated by measuring between the tips of the horns, must have exceeded that of the largest known American species.

Cash Bonus For Farmers

Large Sum Is Distributed By Saskatchewan Wheat Pool Elevators, Ltd.

Cheques to the total amount of $1,430,791 were recently distributed to members of the Saskatchewan Wheat Pool Elevators, Ltd., all of whom are farmers. These cheques represented the surplus earnings of the Saskatchewan Pool Elevator system for the crop year 1927-28. At the annual meeting of Saskatchewan Wheat Pool delegates held in Regina last November, it was decided that these be distributed to the members in cash. The payment is being made on the basis of 1½ cents per bushel for grain delivered through Pool country elevators and one cent per bushel for grain delivered to Pool terminals over the platform.

This is the third payment in cash covering the excess charges refund which has been made to Pool members. The amount of the surplus earnings of Saskatchewan Pool Elevators Limited during 1925-26 was returned to growers in February, 1927, and amounted to $476,000. This figure jumped to $1,372,000 for 1926-27, and for 1927-28 to $1,430,791.96, the amount recently distributed.

Money Needed For Montreal Harbor

Intimated That H.B. Line May Curtail Business At Eastern Part

A bill to authorize a loan of $10,000,000 to the harbor commissioners of Montreal for extension of harbor facilities, received first reading in the House of Commons. Hon. P. J. A. Cardin, minister of marine and fisheries, explained the money was not a gift, but was a loan.

Hon. R. B. Bennett, Conservative leader, drew attention to the possibility of a curtailment of business at Montreal on account of the construction of the Hudson Bay railway. The proposed extension of the line to Winnipeg indicated that some of the business would hereafter go in that direction. Mr. Bennett stated that further discussion would be had on second reading.

January Immigration Figures

Return Movement To Canada From United States Is Noted

Immigration to Canada during January amounted to 4,164, an increase of 13 per cent. over January a year ago. British immigration for the month increased from 771 to 1,133, Immigration from the United States increased from 1,223 to 1,573, immigration from other countries decreased from 1,698 to 1,458.

The return movement to the Dominion of Canadians who had gone to the United States intending to live there and who came back declaring their intention of remaining permaneatly in Canada, amounted during January to 1,767. These are not included in the immigration returns.

At the next World's Poultry Congress, to be held at the Crystal Palace, London, England, in July 1930, it is anticipated that Canada will exhibit about 1,000 live birds. In addition the Dominion will have an educational exhibit.

The cost of the World War has been fixed by a League of Nations committee at $362,500,000,000 (£72,500,000,000).

Alberta School System

Total School Enrolment Is Given As 160,000

Alberta's total school enrolment is approximately 160,000.

A greater percentage of increase occurred last year in high school than in public school enrolment.

The per capita cost of education for all schools in the province has remained practically stationary.

The foregoing information is contained in the annual report of the department of education, tabled in the legislature by Hon. Perren Baker, minister of education.

While the total enrolment in the schools of the province increased by 4,706 in 1928, approximately 37 per cent. of this number is to be found in the high schools. In 1906 the percentage of the entire enrolment in the high school grades was 2.41 in comparison with 11.44.

During the year 56 new school districts were organized. Of these 33 are north of township 53, and 17 north of township 70. The total number of districts in the province now stands 3,497. There are, however, a total of 5,148 departments in regular operation. Eighty-one new one-room schools were built and 13 new two-room schools. This is all exclusive of the building taking place in the towns and cities.

There has been an increased demand for technical education throughout the province.

More than 1,000 more pupils wrote on the departmental examinations than ever before. In the high school grades 75.9 per cent. of all the units written were passed successfully. Making an average of 75 per cent. or more on all units required for matriculation or normal entrance 149 pupils obtained honors.

New text books in agriculture for both elementary and secondary schools were introduced during the year, also a new system of writing manuals. The latter were prepared to accompany the Alberta curriculum in writing.

Approximately $150,000 worth of business was done in the school book branch. Ninety-four per cent. of this business was done with firms located in Canada. The remaining six per cent. went to British and American firms.

Sea Power Is Essential

Great Britain Could Not Definitely Renounce Its Use

Unquestionably Great Britain, to reach friendly accord with the United States, would be prepared to go a long way in renouncing the use of naval power under certain conditions. It is absurd, however, to suggest, as the United States senate does officially suggest, that Great Britain and other maritime powers must renounce the use of sea power under any and all possible conditions. It is no reflection on the good faith of the United States to say that in time of war not even the American navy would be useful in accordance with the terms of any such treaty.

John Decided It

The wife of a famous English Bishop—whom we shall call John Smith—was recently very ill, and required a serious operation. As she recovered from the anesthetic, she was heard to murmur: "Am I in Heaven? Am I in Heaven? No, there's John.

DOG SLED DERBY

Two "gentlemen drivers" are now entered for the Eastern International Dog Sled Derby. There was very little if any of commercialism connected heretofore, but the entry of the gentlemen drivers who race their own dogs for the love of the sport has given the event a much wider appeal. Famous dog mushers from the north with malamutes and huskies, will vie for honors with men whose dogs are bred for show points. The race goes to those with the greatest stamina. Run over a forty-mile course for each of three days, the derby is an endurance test for man and beast. And no whips are used. Arthur Beauvais is seen above with one of the husky types. The other picture shows practically all that a musher sees during the race.

Close Kinship Between Life Of Plants and Animals Is Borne Out By Interesting Experiments

That remarkable native Indian scientist, Sir Jagadis Chundra Bose, founder and director of the Bose Research Institute at Calcutta, is an eloquent and arresting supporter of the close kinship between the life histories of plants and animals and their reactions to external stimuli. He has mustered a vast amount of experimental data in defence of his theory and these have recently been reinforced by a series of interesting experiments conducted by the Boyce Thompson Institute of the United States into the reaction of vegetables to the influence of artificial light. The results indicate that vegetables are not alike, but possess distinct individualities of their own, indeed responding with marked differences that are not very far removed from human responses under corresponding treatment.

Take the radish as an example. No one, probably, had ever suspected the radish of any great yearning after the thrills and excitements of night life. It has always seemed a sort of stodgy vegetable, despite its pungent flavor and its preference for red as a color. But the Institute reports that when the radish had its normal day extended by the concentration upon it of light designed to duplicate as far as possible the light of the sun, it perked up in surprising fashion. Indeed, it displayed a readiness to enjoy the longer hours that would have done credit to regular cabaret patrons.

Even more surprising, however, was the action of the lettuce, than which no vegetable we know could wear an external aspect more conventionally respectable. Though a point arrived where the radish showed signs of getting tired, and of wishing that somebody would put out the light and let it go to bed, not so the lettuce. It, apparently, was prepared to stay up all night. After a straight twenty-four hours of light it was still fresh. This just goes to show that you never can tell. That may be a somewhat bromadic conclusion, but it is further borne out by the response made by the juicy and florid tomato. Here is a vegetable concerning whose sedateness and respectability not even the most suspicious observer has entertained question, even if ripe tomatoes have on occasions been involved in riotous happenings. But if the Institute's reports are correct, we have done it an injustice in suspecting it. After an extra hour under the stimulus of the bright lights the tomato showed signs of extreme weariness, we are told. Another half hour and it began to wilt. In kindness the lights had to be extinguished before a second hour had elapsed.

The tomato evidently knows when it has had enough. Let the radish and the lettuce turn night into day if they like, but none of this night stuff for the tomato. It prefers regular hours. Early to bed and early to rise is its motto. It sets an example of the simple, quiet and fruitful life to its neighbors of the vegetable garden.

Could Not Hold It

The station-master rushed out of his room after hearing a crash on the platform. He discerned a dishevelled young man sprawled out perfectly flat among a confusion of overturned milk cans and the scattered contents of his traveling bag.

"Was he trying to catch the train?" the station-master asked of a small boy who stood by admiring the scene.

"He did catch it," said the boy, "but it got away again."

"The Geographical society says explorers should be bachelors."

"But what would keep them abroad?"

Pratt: "I understand Chicago has adopted a flower as a civic emblem."

Simpson: "Yes? What is it?"

Pratt: "Crocus."

"I am a commercial traveller in insect powder."

"That is very nice, but here we crush them between our thumb." — Pages Gaies, Yverdon.

Airmen Are Modest

Fame and Notoriety Do Not Seem To Affect Them

Airmen of the first rank are shy birds, for in them modesty seems innate, and it is possibly quite true that none has ever boasted of his feats in the war or of his exploits in flying. Deeds have made them known, but it is not they who gushed over them. Fame, and more often a welter of notoriety, has been thrust upon them; but from it they have emerged as they do from the clouds, unruffled, unaffected, reserved.

They may have flown the north Atlantic, as three did, from Dublin to Greenly Island, and be engulfed in ovations that would turn the heads of lesser kings. But when the noise subsides, and the glory they best know came so close to catastrophe, has gone down in the records of aeronautics, those fliers, like the host of their comrades in flight doing their jobs of work, retire into unmolested privacy. Their names were in everyone's mouth; but in a few months, in a year, are difficult to recall; and they might not be remembered today had not one of the three, Baron von Huenefeld, at Berlin, with regrettable untimeliness, taken off on his flight in death.

It was as a passenger that Von Huenefeld joined in the north Atlantic flight, which he had made possible by expending on it all he possessed; but he was a pilot when he died, and in the last few months had flown a remarkable flight from Germany to Japan. He had joined the men who fly. Among combatants, they are apart; among civilians, they are alone. In war, as in peace, their code is exemplary in honor. It is the same for all nations, high as the ships their airmen fly. They will be wreathing laurels for Von Huenefeld. He would not ask more; for the spirit of him that has taken off will be borne to the aerodrome at which all airmen must land in time, so many so early.

Air Mail For the West

Understood That Post Office Department Will Resume Winnipeg-Calgary Service

While there is good reason to believe that the cabinet greatly reduced the amount of money sought by the post office department for the extension of air mail services in the Dominion, it is understood that it is the intention of the department to proceed with the Winnipeg-Calgary service as soon as the estimates are approved by parliament.

The total amount of the increase sought by the department for air mail services is said to have exceeded $1,000,000 and this was reduced by the sub-committee of the cabinet which reviews the estimates before their presentation to parliament to $800,000. This reduction will compel the post office officials to exercise the greatest care in preparing their plans and in negotiating air mail contracts with private airway companies. The cost of the Winnipeg-Calgary service was estimated at between $450,000 and $500,000, but the department is committed in other directions in regard to air mail services and as it now stands not more than $400,000 of this amount will be available for this service across the prairies. Notwithstanding this unfavorable situation, however, the officials will proceed with plans and make every effort so to arrange the matter that a service will be begun, probably next autumn.

His Reminder

A K.C. strolling along a street one morning, came to a fishmonger's shop. He was fascinated by the dead, expressionless eyes of the fish on a slab in the window.

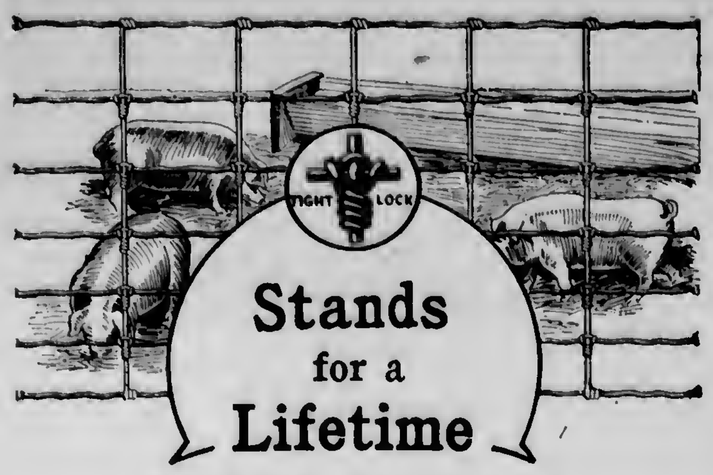
"Good lor', that reminds me," he said suddenly hurrying away. "I've got to address a special jury this afternoon."

A British scientist predicts that in time to come men will be born toothless. We thought, in our ignorance, that they usually were born that way.

No doubt there are lingo lexicographers who know the exact shades of differences between hooey, hokum, blah, baloney, applesauce and banana oil.

Blinks (waiting with friend): "Was your wife ever on time?"

Jinks: "Well, once she sat on my watch.



Stands for a Lifetime

THE finest, most distinguished looking farms and ranches in Western Canada are protected by Frost, the fence that looks its quality! It will make your farm look its best! There is only one way Frost Fence can stand when properly erected, and that is straight and true. The tight lock HOLDS under the severest strains. Frost made wire and extra galvanizing defy rust. If you want fence that will give you a lifetime of faithful service, see the Frost dealer in your vicinity. If you do not know his name, write to nearest address below.

WORLD HAPPENINGS BRIEFLY TOLD

Vnncouver, B.C., is under serious consideration as the site for the next $50,000 Wrigley marathon swim, Elwood Hughes, director of the event has nnnounced.

The Daily Mail, London, Eng., says the Czecho-Slovakian minister of the interior has refused Leon Trotzky a passport visa to permit him to enter that country.

Reports from appnrently well-informed quarters in Canton, said the Canton government expects the Nationalist government at Nanking grammes are nationally broadcasted, but they are [illegible] soon to launch a military campaign ngainst it.

The addition of the lash to penalties for trafficking in drugs wns approved by the special committee of the House of Commons, which is considering amendments to the Opium nnd Narcotic Drugs Act.

Approximately 35,000 bushels of seed have been graded and sealed under registered grades since the Dominion seed branch of the Department of Agriculture started operations in Saskatoon at the beginning of the year.

"The recommendations of the Imperial wireless and cable conference, 1928, have been in general accepted by the governments concerned, including the government of Canada," Hon. P. J. Veniot, postmaster-general, stated in the House of Commons.

The Toronto city council has authorized the board of control to call for designs for n memorial to Sir Adam Beck. The memorial is not to cost more than $25,000, nnd its main feature is to be a bronze stntue of Sir Adam. The monument will he erected on University Avenue, Toronto.

Nobody ever has to take a tonic to create an nppetite for flattery.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMULLEN, Vanessa, Ontario.

Productivity Of Mosquitoes

One Lone Mosquito Reproduces Billions Yearly, Says Scientist

The normal productivity of one lone female mosquito in n year is 159,875,000,000 offsprings, said Dr. Thomas J. Headlee, chief nntomologist of the New Jersey agricultural experiment stotion, when addressing the annunl convention of the New Jersey Mosquito Extermination Association. However, Dr. Headlee said, only 79,973,500,000 of these should be counted as pests, for they are active, buzzing, biting, egg-laying femnles. The others nre mere males which do not bite.

Britain's Wheat Market Valuable To Canada

Interesting Facts Brought Out In Report Published From Ottawa

The mnrket in Great Britnin is worth twice as much to the Canadian wheat grawer ns the markets af all the rest of the world taken together. That is n fact that stands out in a report published from Otlawa giving the export figures for the present crop year up to date. Putting it nnother way, if nll other countries barred our whent by excluding tariffs, the Canadian farmer could still find a market for two-thirds the amount of wheat he now produces—in Great Britain. Or, if Britain harred our wheat, we would have to find huyers elsewhere for threa times the amount of wheat we are nble to sell in other countries nt present.

Canadian wheat—and every other Cnnadian product—has n preference in Great Britain. The proof is that no other importing country in Europe ndmits our wheat on the same favorable terms. Should Britnin ever adopt a tariff, there is no doubt whntever that Canndinn whent would bo ndmitted on the most favorable conditions granted to any wheat-growing country. A tariff is being nctually proposed there in order thnt n financial preferenee could ho given to Canndian whent. The British market is the permanent outlet for Cnnadn's surplus wbent crop, incomparnbly the largest outlet thero is, and the lnrgest there is likely to be. Thnt is a fact which Canndians ought to keep in mind when they think of internationnl trade—nnd when they are thinking of buying imported goods.—Edmonton Bulletin.

Heart Trouble

Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several yenrs ngo, I was troubled with my heart nnd nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for n while, but it did me little or no good. I happened to see

Dirigible Flight Delayed

Giant British Craft Not Making Trip To Canada Until July

The flight of the dirigible R-100 from England to Canada will probably be made towards the end of July, it was learned at the department of national defence. It had been set for the end of May, but technical improvements to the craft are being made which will necessitate delay.

Officials of the department regard the flight ns one of the most important steps in inter-empire communication so far attempted. Possibility of n route to Australia across Canada is not considered beyond the bounds of possibility.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such n condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

What "It" Is

Perhaps this can he applied generally to all hushands, hut a woman in the Willesden police court recently defined the word "It" as used by n famous woman novelist. The clerk pointed to a man in court and said "Is that your husband" She replied, "Yes, sir, that's it."

A philosopher is a man who never feels badly after he has made nn ass of himself.

Lesson: Matthew 3.13-17; 28.19, 20; Acts 2.38, 41; Romans 6.1-14; 1 Corinthinns 11.23-29.

Devotional Reading: Revelation 7. 9-17.

Explanations and Comments

Christ's Commission To Baptize All the Nations, Matthew 28.19, 20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples snw Him nnd worshiped Him. He told them of His universal dominion ("All authority hath been given me in heaven and on earth"), and gave them His world-wide commission to make His power n reality: "Go ye therefore, and make disciples of all nations."

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country, nnd, with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first harizon that He saw, nnd the last. When He was born, good tidings came unto whom—the Jews? 'Unto all peoplo'; 'among nll nntions'; 'throughout the whole world'; 'to every creature'; 'to the uttermost pnrt of the earth': are Christ's words. 'Go ye into all the world' is his limitless command, his boundless expectation."—Maltbie D. Babcock.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever He commanded them. "Baptism is (1) into the name of the Father, as our Creator, Preserver, and Benefactor, who rules us, as free agents, by His love. It is (2) into the name of the Son; in baptism we assent, as Peter did, 'Thou art the Christ, the Son of the living God,' and consent, as Thomas did, 'My Lord, and my God.' We give ourselves to be taught, and saved, and ruled, by Christ. It is (3) into the name of the Holy Spirit. We give ourselves to His guidance, as our Sanctifier, Teacher, Guide and Comforter."

And then Jesus gave His wonderful words of comfort and encouragement and cheer: "Lo, I am with you nlways" (not will be, but am), "even unto the end of the world!"

"Our responsibility for missionary work is patent in the command of Christ; our power for that work is perfect in this great promise of Christ.

Success and Happiness

People Do Not Fail Entirely Who Never Reached Goal

Mr. Edison, on his eighty-second birthday, told n number of assembled newspapermen that he was not acquainted with anyone who was happy. There is no reason to suppose that Mr. Edison was jesting, and it would be an impertinence to suggest that he does not know his own mind. But if by "happiness" he means what tens of thousands of his fellow men mean—the satisfaction of having tried hard and won—Mr. Edison is clearly stretching a point, since in that case he himself should he one of the happiest of men. He has gone from victory to victory in the world of scientific invention and he will leave an undying name behind him. In some few things he may not, in his own opinion, have succeeded; but this is not to say that he failed. You do not necessarily fail entirely because you do not wholly succeed; and Thomas A. Edison has been a very notable success.

When n mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel nll worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough wark. No worms can long exist where these Powders nre used.

The Good Old Days

Maybe two can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lyncham, England, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making but $2.50 a week and that shortly after his salary was reduced to $2.25.

Scientist says life evolved in a series of jumps, and a cursory inspection of our thoroughfares convinces us it is still evolving that way.

Want Rail Deal Approved

Agreement Between Railways and Province Of Alberta Up For Ratification

Approval af the agreement between the C.N.R., the C.P.R. and the Province of Alberta, for the purchase of the undertakings of the Edmonton, Dunvegan and British Columbia railways; the Central Canada Railway Company; the Central Canada Express Company; the Alberta Great Waterways Company, is sought in a resolution placed on the order pnper of the House of Commons, by Hon. C. A. Dunning, Minister of Railways and Canals.

The resolution seeks further nuthority:

"To incorporate the Northern Albertn Railways Compnny, in which are to bo vested the said jointly acquired railways."

"To authorize the Governar-in-Council to guarnntee the principal nnd interest of the securities to be issued by the Canadian National Railway Company, to an amount or nmounts fixed from time to time by the Governor-in-Council for the payment of one-half the purchase, and one-half the obligations assumed under the said agreement."

The Explanation

"I hought n new car and gnve up my piano-player ns first payment."

"I didn't know they nccepted piano-plnyers as payment on new cars."

"They don't usually, but the salesman is a neighbor of mine."

Mother (giving afternoon tea instructions): "Now, remember, Willie, when these cakes nre handed round you must take n plain bun from the bottom of the dish."

Willie (disgustedly): "Just my luck! The borgain basement again!"

"Dick is nll right if you know how to take him.

"I hate these peaple who have to be labelled like a bottle of medicine."

Reward Wheat

Is Gaining In Favor In Some Sections Of Manitoba

Reward wheat continues to look promising nnd in some sections of Manitoba may prove more desirable than Durum, in the opinion of L. H. Newman, Dominion cerealist, who met provincial nglculturists interested in the selection of npproved varieties of wheat; the object being to reduce the number of vnrieties to those of demonstrated superiority.

There are 10,000,000 accidents in the United States each yenr.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The *white package* of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or *tint* silk, wool, cotton, linen, rayon or any mixture of materials. The *blue package* is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The *blue package* dyes silk or wool only. The *white package* will dye every kind of goods, including silk and wool.

Your dealer has both packages.

Diamond Dyes Perfect results Easy to use AT ALL DRUG STORES 15¢

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Rebel Forces In Mexico Are In Revolt On Three Sides Of Capital City

Mexico City.—Revolution flamed on three sides of the capital recently. The state of Vera Cruz was almost entirely held by rebels, the Isthmus of Tehuantepec, to the south, was reported in their hands, and another group had taken the northern border state of Sonora without bloodshed.

General Jesus Maria Aguirre's seizure of Vera Cruz cut the capital off from the Gulf of Mexico to the east. The holding of the Isthmus would be of small value to the revolters unless they possess the Pacific port of Salina Cruz. Possession of Sonora gave them control of the northern end of one of three main railroad routes from the United States.

Eight states are involved in the revolution, leaders of the movement here said. The states included are: Vera Cruz, Chihuahua, Durango, Sonora, Hayarit, Jalisco, Coahuila and Sinaloa.

General Plutarco Elias Calles, of Mexico, was named secretary of war by President Emilio Portes Gil. He immediately assumed his duties, replacing General Joacquin Amaro, who has been in a hospital after an operation on his eye. General Calles will take active charge of the Mexican army.

Provisional President Emilio Portes Gil summoned a special session at his palace, of the supreme war council and the cabinet. Former President Plutarco Elias Calles joined the conference to lend his strong hand to federal defence. Governor Aaron Saenz was another strong political leader who rallied to the president.

Pioneer Lake Captain Dead

John Cousens Saw First Steamship To Sail Lake Superior

Port Arthur, Ont.—Marine Captain John Cousens is dead here aged 82 years. At Sault Ste. Marie he saw the passing of the Rescue, the first steamship to sail Lake Superior. He sailed on the Chicora, famous blockade runner.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail over the ice route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor at the reading of the proclamation of Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by Willia Tremblay, Conservative M.L.A., for Maisonneuve, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Has Had Effect

Ottawa. — Amendments to the Opium and Narcotic Drug Act, to provide for the deportation of aliens convicted of trafficking have had a salutory effect. Convictions have dropped from 1,349 in 1922, to 343 last year.

Famous Flyer In Accident

Col. Lindberg and His Fiancee, Miss Morrow, Meet With Mishap

Mexico City.—Colonel Charles A. Lindbergh's flying skill saved the life of his fiancee, Miss Anne Morrow, when their 'plane capsized on landing at Valheta Field.

The colonel is confined to bed in the American embassy residence with what embassy attaches describe as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindberg was returning from an air trip of several hours with the girl whom he will marry. The aeroplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the 'plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the 'plane pitched forward and turned completely over.

Later, Colonel Lindberg declared "this is nothing at all. It is not an accident; it is simply a mishap."

Died In Geneva

New York.—Frederick M. Harris, editor-in-chief of the publications of the Young Men's Christian Association, died in Geneva where he had gone last October for medical treatment, according to word received here by his associates.

Grant Hall Received By Pope

Rome. - Pope Pius granted an audience to Grant Hall, vice-president of the Canadian Pacific Railway, who is visiting in Rome.

Westminster Glee Singers

Famous Organization Making Tour Of Western Canada

Outstanding among the musical events of the present winter, is the visit of the Westminster Glee Singers, who are at present touring Western Canada. The excellence of this traditional group of singers is known throughout the Empire, and music lovers of the Canadian West are greeting with delight the appearance of these famous entertainers, seven of whom are boy contraltos. The program includes a charming arrangement of madrigals, plantation songs, folk songs, sailor chanteys and sacred selections. Following is the balance of the itinerary arranged for them in Western Canada.

Prince Albert, March 8 and 9; Saskatoon, March 11, 12 and 13; North Battleford, March 14; Vermilion, March 15; Vegreville, March 16; Olds, March 18; Ponoka, March 19; Red Deer, March 20; Edmonton, March 21, 22, 23; Calgary, March 25, 26, 27; Lethbridge, March 29, 30; Medicine Hat, April 1 and 2; Macleod, April 8; Coleman, April 9; Fernie, April 10; Cranbrook, April 11; Nelson, April, 13; Penticton, April 15; Kelowna, April 16; Vernon, April 17; Kamloops, April 18; Chilliwack, April 19; Vancouver week commencing April 22nd.

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Taschereau, Of Quebec

Quebec.—Questioned as to a rumour that an attempt had been made his life, Premier Taschereau stated that when he went to his office in the parliament buildings at 10.45 p.m. he found a stick of dynamite on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Taschereau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he noteed the dynamite lying on the floor.

Premier Taschereau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Speeding up their plans with the opening up of the weather, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying four passengers or 550 pounds of freight. It will have a cruising radius of 550 miles and will be able to travel at a speed of 135 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of its kind purchased.

Plan New Airplane Plant

Will Be Built In Victoria According To Report

Victoria B.C.—Negotiations are proceeding for the creation of an aircraft industry under the name of Yarrow Aircraft Corporation, Limited, involving a merger of the Dominion Airways, Limited, Vancouver, and the interests of Norman A. Yarrow, head of the Yarrow, Limited, Esquimalt ship repair works, according to rumors here.

While admitting the scheme is under consideration principals in the merger decline to discuss details of their plans.

Opera Star To Retire

Schuman-Heink Thinks It Time Professional Career Was Ended

New York.—Except for one more appearance, or possibly two, in opera here this season and some concerts in the West, Mme. Ernestine Schuman-Heink, called the greatest of all living contraltos, is to sing no more professionally, she announces.

"After this season," she said, "I think it's time for an old lady to retire. I don't want to keep on singing when people say, 'Oh, I wish she would stop.'"

RECEIVES NEW APPOINTMENT

J. M. McKay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Application Is Dropped

Canadian Northeastern Nel Building Railway Into Peace River Country

Victoria, B.C. — The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of its original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a tidewater port in northern British Columbia, to Fort Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Finlay river from Fort Graham for 100 miles, pending decision of the future of the government line.

New Reparations Plan

English Financial Expert Outlines Plan For Compromise

Paris.—A suggested revision of the Dawes plan for German reparations has been outlined by Sir Josiah Stamp, English financial expert, one of the international war debt conferees now in session in Paris. His plan would afford a compromise between the maximum annuity which the German Republic would be willing to name and the minimum annuity which the Allied delegates would consider.

Piloted Two Zeppelins

Berlin.—Walter Scherz, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

Will Appoint Commissioner

Ottawa.—A Canadian trade Commissioner's office has been established at Panama and a trade commissioner to the post will be appointed shortly.

Budget Surplus Of $69,782,000 Estimated By Hon. J. A. Robb

Ottawa.—Hon. James A. Robb, Minister of Finance, presented his annual budget statement to Parliament.

He announced reduction in the net debt of Canada for the present fiscal year, which ends on March 31 next, of $69,782,000.

An estimated surplus of total revenues over total expenditures for the current fiscal year of $69,782,000.

Estimated total revenues for the current fiscal year of $454,942,000.

Estimated total expenditures for the current fiscal year amounting to $385,160,000.

Total reduction in the net debt during the past six years of $226,708,000.

The government will pay the $60,000,000 loan maturing on August 1, next, out of surplus revenues thereby effecting an annual interest saving of $13,300,000.

The Canadian National Railways will show a surplus of about $7,000,000 for the railway year 1928, after paying all charges with the exception of interest due the government.

A favorable trade balance for Canada of $154,100,000 for ten months of the fiscal year.

Tariff changes designed to reduce taxation and to lessen the costs of production.

Taxation changes representing an estimated loss of revenue totalling $25,000,000.

Ottawa.—The budget today takes another one per cent. off the sales tax, bringing down to two per cent. This was the most important change it contained.

The tax on the sale and transfer of stocks is changd from a flat rate of three cents to a graduated scale from one cent to four cents.

Tax on insurance premiums other than life and marine of one per cent. is abolished.

Tax on railway and steamship tickets is removed. This takes effect May 1.

Tax of three cents on telegrams and cables is abolished.

The total loss of revenue from reduction in tariff and other taxes is estimated at $25,000,000.

The transportation tax which is abolished (Section 29 of the Special War Revenue Act), is a tax of five cents on tickets over $1.00 and less than $5.00—over $5.00 for each additional $5.00 five cents.

Steamships $1.00—when fare exceeds $10.000, but less than $40.00, then $3.00 up to $65.00, above that a $5.00 tax. Chair car—ten cents; sleeping car, ten per cent. These are abolished from May 1, 1929.

Death Of Sir James Aikins

Former Lieutenant-Governor Of Manitoba Passes Away

Winnipeg. — Sir James Aikins, K.C., former lieutenant-governor of Manitoba, and a distinguished member of the Canadian bar, died early Friday morning.

Sir James, who was in his 78th year, died at the residence of his son, Major H. Harold Aikins, shortly after midnight. He had been ill for a week, when he suffered a heart attack.

Sir James had a brilliant career in law, politics, the church and business, which won for him an international reputation. He was one of the founders of the Canadian Bar Association, and for many years was its president.

Cruiser Plan Satisfactory

Britain Has No Objection To U.S. Building Program

London, England. — Sir William Joynson-Hicks, the home secretary, told a conference of women Conservatives that the British Government had no objection whatever to the building of new cruisers by the United States.

"I cannot conceive that the American cruisers can ever be used except as an ally of Great Britain," he said. "I cannot conceive the possibility of the infinite stupidity of war between the great Anglo-Saxon nations of the world. We, therefore, are making no objections."

Forced To Swallow Knife

Toronto Thugs Use Inhuman Method On Victim

Toronto: Angered at the small amount of money they found on his person, two thugs forced Angelo Avgusta, 35, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life.

According to the victim one of his assailants attempted to make him swallow the knife with the blade open but his accomplice interfered and the blade was closed.

Close Town Jail

Danville, Ill. -With the office of chief of police abolished as unnecessary and the lock-up abandoned as a fire-trap, this town of 6,000 inhabitants is now depending on an honor system. Any arrested person faced the prospect of lodging in the village hotel at the city's expense.

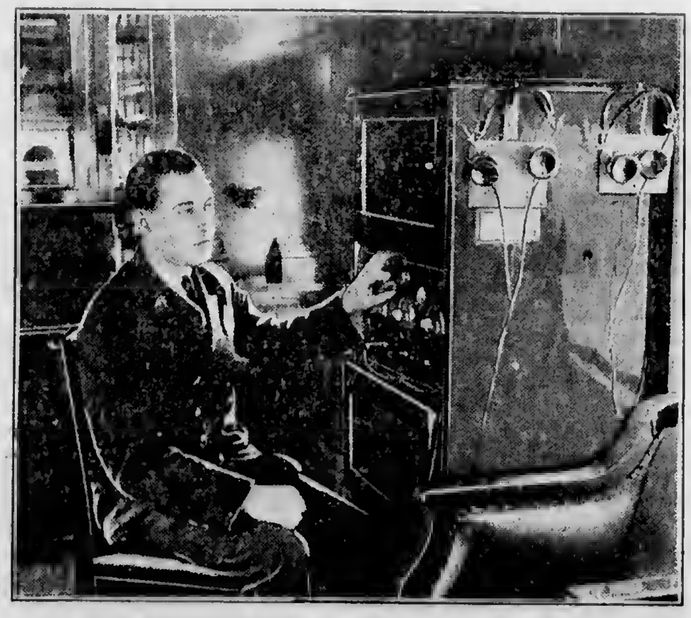
Both Railway Companies Are Claiming Priority Construction Rights

Ottawa.- The bone of contention between the Canadian National Railways and the Canadian Pacific Railway, with regard to the branch line program, came up before the parliamentary committee on railways and canals. Except for one area, an agreement has been reached between the two companies in connection with their program. The single exception is the line projected between Meifort and Aberdeen, in Saskatchewan, to which both companies claim priority construction rights.

Sir Henry Thornton, president of the National Systems, told the committee that the Government owned road claimed this territory by virtue of the fact that 12 years ago, the old Canadian Northern had already started building there, and had already graded 19 miles of the 67 mile project. Four years ago, this line had been one which had been presented to the Government in the company's program, but with others it had been rejected by the Senate. He felt that the railway had given ample evidence of its good faith in proposing to carry on with the construction. Commenting on a protest by A. F. Fotzke, of Humboldt, Sir Henry declared that the C.N.R. did not claim any part of Canada as exclusively Canadian National territory, but felt that reasonably and as a matter of common sense, that particular line, upon which work had already begun should be regarded as within the scope of C.N.R. construction.

E. P. Flintoft, K.C., counsel for the Canadian Pacific Railway, declared that last year, his company had carried on surveys, upon the representations of the inhabitants of this district, and on their declarations that the C.N.R. did not contemplate building a line there. He felt that the committee should grant the charter in order that it might keep faith with the public.

Radio Operator Has Travel Record



Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,726 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,050 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, compartment, observation car.

Wheat Pool Now Making First Interim Payment On The 1928 Crop

Winnipeg. — An interim payment on the 1928 crop totalling more than $26,000,000 is being distributed to Wheat Pool members of Western Canada, according to a statement by E. B. Ramsay, general manager of the Canadian Wheat Pool.

The payment is 12 cents per bushel on wheat grades one to five, and on flax and rye. Ten cents per bushel is being paid on number six wheat.

Manitoba Pool members are receiving the sum of $2,289,455.46 on deliveries of 18,408,000 bushels of wheat, and 703,760 bushels of flax and rye.

Members in Saskatchewan are receiving $17,499,433.31 on 146,414,000 bushels of wheat, and 3,165,500 bushels of flax and rye.

The Alberta Pool payment of $6,410,035.12 is on 55,000,000 bushels of wheat. The total amount distributed is $26,198,923.92.

The payment made at this time is the first payment to be made on grain of the 1928 crop following the initial payment made at the time of delivery by the grower. In 1928 the first interim payment was dated March 9, but pool officials state that the date of the payment was advanced this year as much as possible in order to accommodate the thousands of pool members who have been hard hit financially as a result of the very disastrous frost which occurred on August 23, 1928, and which was general over the three provinces.

The Saskatchewan crop was particularly damaged by this frost owing to the fact that there are so few districts in the province which were not affected to the extent of lowering the grade of the crop from two to four grades.

Commenting on this aspect of the 1928 crop, and on the payment now being made, A. J. McPhail, president of the Saskatchewan Wheat Pool said:

"Notwithstanding the relatively higher price for wheat which prevails now as compared with the heavy crop season of 1923-24 when the Alberta Pool alone was operating in Western Canada, and notwithstanding the exceptionally heavy crop harvested by Saskatchewan farmers in 1928, there is no question that the wheat grower has just cause to be greatly troubled over the financial returns from his efforts last year. By way of comparison it may be said that for the period of the crop year, August 1 to January 31, the grading of Saskatchewan Pool deliveries from the 1927 crop showed only 22.23 per cent. as falling into the grades from No. 4 to feed, while the corresponding figures from the crop of 1928 is 55.81 per cent. The cause of this greatly increased percentage of lower grades from the 1928 crop is the widespread frost which occurred in August, 1928.

News Notes

Mr. and Mrs. Grant Card returned last Tuesday from Portland Oregon, where they have spent the winter months.

Mr. George Rasmussen suffered a broken leg last Tuesday while taking a load of lumber to his farm south of town. He was found by the roadside in an unconscious condition by a Jap farmer. His leg was broken in two places and it was found necessary to take him to a Lethbridge Hospital. The full seriousness of the injuries is not known.

A party was given last Friday evening at the Second Ward Chapel in honor of the cast of "Pickles" given by girls of the combined Raymond Mutuals. A splendid program was rendered, followed by a tasty luncheon, and the balance of the evening was spent in dancing. It is reported as a "glorious evening," and a fitting reward for the labors that was necessary to put on this big production. The "Pickles" cast were all in their show costumes adding the last dash of necessary color to the evenings entertainment. They report that Tommy was even better at the party than in his original role in the show. His partner, Solon was unable to attend.

Raymond appeared at Magrath last Friday night almost "enmasse" following the victorious High Hoopsters, who won from the Garden City quint easily, and also to attend the big dance featuring "Val's Seven Aces" from Calgary.

The New Dayton Amateur Dramatic Society will present Marie K. Warren's Comedy Farce play "The Elopement of Ellen" on Friday night featuring the Rev. H. Pepin in the character of John Hume. Mr. Pepin is a graduate of the school of expression London, England, and a gold medalist the Kent County estafod. The play was produced at Stirling on Saturday last and was enthuastically received. The attraction should prove the popular hit of the season.

What promises to be the best basket ball card of the season will be played next Saturday evening at the Opera House. The main feature, the Lethbridge "Y" Aces versus the local intermediate will be a real battle The Aces defeated the local basketeers in Lethbridge and our boys are out for revenge. The Stirling intermediates are a fast aggregation and when matched against our own speedy Hi quint it will be a game of championship calibre. The basketball season is drawing to a close and it is expected that a large crowd will be present to enjoy this evening of real entertainment.

THE ATHENIANS MEET

Mrs. Wm. Meeks entertained the Athenian Club at her home Monday, March 4th., the occasion being her birthday anniversary.

The decorations on the dining table were carried out in Easter effect. The beautiful place cards were the artistic work of Miss La Rue Meeks. The birthday cake, a gift from Mrs. Milner added much to the attractive table.

After toasts and sentiments were expressed, the charming hostess was presented with cut glass.

The following ladies enjoyed the affair: Mrs. Wm. Nalder, Mrs. Milner, Mrs. C. Nilason, Mrs. Snow, Mrs. Heber Chrisensen, Mrs. C. W. Lamb, Mrs. A. W. Kirkham, Mrs. Eliza Whitbeck, Mrs. S. B. Card, Mrs. Bonnie Nalder, Mrs. Edgar Nilsson, and the hostess Mrs. Meeks.

Letters reaching the Publicity Commissioner's Office continue to indicate the interest in the opportunities for settlement in Alberta which is being shown by farmers in the mid-western states. The announcement is made in a letter from A. E. Pilkie, Canadian Government Agent at Omaha, Nebraska, that ten farmers from one district in Nebraska plan to come to Alberta early in the present spring with the purpose of purchasing from ten to fifteen sections of land. Similar encouraging reports are being receive from a number of other localities in which exhibits of Alberta agricultural products were shown by the Publicity Branch during the past two seasons.

Pyorrhoea

Pyorrhoea is a very much abused word. It is employed by the average person to denote all inflamatory conditions of the gums no matter what the cause. Many of these cases of gingivities are caused by traumatism or local irritation such as too spicy food or too hot liquids. Other forms of gingivitis are caused by constipation or the use of violent purgatives, also by systemic conditions such as pregnancy, or disease such as diabetes Still other forms spring from infection by microorganisms not commonly found n pyorrhoea. It will thus be seen that many cases of gingivitis, commonly spoken of as pyorrhoea, by the ordinary person ,could be easily and quickly cured were dental and medical attention given the case before deep seated infection had taken place.

Pyorrhoea is a constitutional disease with a local manifestation which results in the breaking up or detachment of the tissues surrounding the teeth.

There are four distinct types of pyorrhoea. Three of these types present practically no visible pus. The fourth type presents considerable pus to the trained eye and is the most dangerous form in which this disease appears.

Pyorrhoea usually commences as a result of previous gingivitis that has been left untreated.

Once pyorrhoea becomes well started it takes on its most insidious aspect. There are four reasons responsible for this: 1st. The gums usually lose their inflamed appearance and return to a somewhat normal color. 2nd. The germs of pyorrhoea are antagonistic to tooth decaying germs, hence there is little or no decay. 3rd. There is little pain or other discomfort as far as the mouth is concerned especially in the earlier and middle stages. 4th. As a result of the above three facts the patients is lulled into a false feeling of security and usually not until the disease has progressed so far as to produce very loose teeth or pyorrhoeatic abscesses, will he or she take steps to rectify matters.

(To be continued)

MAINTAIN

THE QUALITY OF

ALBERTA'S CROPS

BETTER SEED

means

Better Yields - Better Grades - Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain,

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed .
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand thi sspring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with a- -

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

CHAPTER XV.—Continued

For a moment Connie was silent. "When—when my dreams come true," she responded with an embarrassed smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the music, the costumes and the singing, her grey eyes wide with longing, she sighed deeply.

Donald's voice trailed to a drowsy close; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, exquisitely floating, on a sea of fleecy clouds that was bearing him softly away. A delicious langour enthralled him—an enchantment drowsy and dim. He felt himself drifting, drifting . . . He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had lain hidden awaiting an opportunity to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. The thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream. Every hour since the fight Hand's hatred for Donald had grown blacker. He would show him that he, Ole Hand, deserved his reputation as a fighter. He would hold this cripplee man helpless while he showered blows on his unprotected face, make him cry out for mercy on bended knees; perhaps kill him. His hatred grew hotter and deeped as he watched him lying peacefully beside the girl who had been the cause of the fight in which he had been ignominiously whipped.

Connie sat gazing down on the sleeper. A sudden thought seized her, bringing a warm flush to her cheeks. Why not? No one would ever know. Would she dare? She glanced timorously about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluejay screamed derisively. Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself.

"I'm sorry, Connie," he apologized, "it was very rude of me to go to sleep."

A moment later he walked down the hill. Connie accompanied him a short distance, then turned up a steep path, and from a high, rocky ridge she watched his retreating figure as he turned toward the dam.

A huge bucket on a cable, that had been used during construction for carrying men and material across the roaring chasm below the falls, still hung above the boiling waters.

For Donald there was a certain thrill, a keen exhilaration, in swinging in mid-air in this crude conveyance. He stepped into the bucket and with his one good arm pulled it along the rusty cable.

The Breed, hidden near the trail, saw Donald as he walked toward the dam. The venomous look in his eyes gave place to one of strained interest as he saw the two men skulking menacingly after the unsuspecting man. With a feeling of malignant exultation, as he sensed disaster to the man he hated, he hobbled to the trail and furtively followed.

From the heights above Connie saw the sneaking figures as they crouched low against the edge of the dark spruces and at once divined their murderous object. For an instant she was paralyzed with terror. Her lips refused to move and her limbs grew numb.

The men moved cautiously as they approached their intended victim, fearing that he might be armed. As Hand saw Donald suspended over the river a look of fiendish elation crossed his features. Here was a chance to dispose of his enemy with no trace of the crime. He tore a fire-axe from the wall of the tool house and ran to the swaying cable.

"Joe! Joe! Stop them. Stop them!"

Screaming again, she plunged straight down the hillside in a mad race to reach the scene of action. Running like a deer, stumbling and falling, her breath coming in short gasps, she ran wildly on. Snarls of the thorny crabapple tore at her, devil's-club lacerated her face and hands, but she felt no pain. "O God," she prayed aloud, "help me to save him! Help me save him!"

Donald's face blanched at the sound of the axe as it bit into the heavy cable. He looked down at the jagged rocks and seething waters below. Then with closed eyes and a prayer on his lips he tore in mad frenzy at the rope. Desperately he tugged with both hands, although the pain from his broken wrist sent a wave of torment up his arm that sickened him.

No man can measure the speed of thought in a crisis; even the sluggish brain of the Breed functioned rapidly. Connie was not for him. Her happiness was bound up in the man working feverishly at the haul-back. There was not one chance in a million that he would gain the safety of the cliff before the strands parted to plunge him to eternity. As he heard the crashing of Connie's slender body as she tore down the hill, a softness crept into his eyes. With a speed incredible in one with his pitiful deformity, he ran in a series of bounding steps to the edge of the bluff. The noise of tumbling waters drowned the sound of his approach. Just as Hand raised his axe for the final blow, the muscular arms of the Breed were flung about him. Emitting a startled curse, the big man turned and with a twist of his powerful shoulders flung his dusky assailant to the ground. As he rose Hand swung viciously at him with the axe.

With a quick movement the Breed dodged, and the weapon flashed over his head, flew from the big man's hands, and struck his confederate a glancing blow on the shoulder that brought from him a howl of pain. Again the Breed's arms closed about his adversary's waist. Mad with the pain in his shoulder, the foreigner drew a long, keen knife, circled warily about the two wrestling men until he found an opening, then plunged the knife to the hilt in the Breed's left side. The stricken man slithered from his opponent's arms and fell a crumpled heap to the ground.

Sick and giddy, Donald stumbled from the bucket, seized the axe and advanced weakly toward Hand. Hand's accomplice, taking one look at the prostrate body, turned and fled terror-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of pity flung herself to the ground by the Breed's side and placed his head on her lap. The eyes of the wounded man flickered slowly open. He tried to speak, but a strong convulsion shook his frame from head to foot and he writhed in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer.

"I—I—love you," he whispered faintly, "I—saved him—for you."

A ghastly pallor spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper. "Connie—will—you—kiss me?"

As Connie pressed her tear-wet face to his the pain-contorted features relaxed in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping softly.

"How is he, Connie?" he questioned gently.

"He's dead."

Donald removed his hat and knelt with bowed head.

"He died for me," he choked.

"And for me," she whispered inaudibly.

CHAPTER XVI.

Lest we tire of monotony, Nature gives us a change of colour for each of the flowering seasons. Flowers of every hue may be found through the different months. Pink for May, red for June, blue and pink for July, and during August royal robes of gold and purple clothe the hills and valleys.

The last week of August brought to Summit Lake a pageantry of colour that the Coast region is denied owing to the persistent rains that retard the ripening of the leaf. The deciduous trees were already withdrawing their life-giving fluid from the leaves to store it in their roots until spring. The willow, vine maple, birch and alder along the creeks and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in their setting of sober dark green conifers.

A gaudy red were the vine maples, but there was a leafy beauty greater than theirs. The flowering dogwood blazed from every nook and cranny. The ripening of the dogwood gives to its leaves a flame that burns with a fierce glow; a glow that further ripening deepens until its crimson flush becomes the loveliest hue of the British Columbia woods.

The fireweed, or willow herb, that in July gives to the open spaces a gorgeous tint of bluey pink, were now loosing a flock of seeds to float away like tiny parachutes. Each small bit of fluff held a minute germ of life that would build a plant as large as its parent when, dropped by the friendly wind, it reaches a fertile spot. The stately cottonwood were sending out a life-fluff as tiny as that from the smaller plants. Thistles, cat-tails and asters hurried to join the silken clouds until the air was misty with these germ balloons, seeking their winter's rest. The red elderberry and its magenta neighbour, the thimble berry, with its truculent Scotch cap, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet but they were no longer to be found in their usual haunts. In some retired spot they were moulting. While the weather was at its best, and food was the most plentiful, they were dressing themselves in a new set of feathers for their long flight to the south. The tops of the tall pines were filled with sweet twitterings, of flutterings out and in, wing trails and quick short flights. A flock of waxwings had gathered for the migration. They would not leave for some time yet, but the change had come. Birds from the north had arrived, creeping south by easy stages, taking plenty of time in their journey—the freest creatures that live, staying or going as they feel inclined.

Little Helps For This Week

"And Jesus saith unto them, How many loaves have ye?—Matthew xv. 34.

So still, dear Lord, in every place
Thou standest by the toiling folk
With love and pity in Thy face,
And givest of Thy help and grace
To those who meekly bear the yoke.

The lives which seem so poor and low,
The hearts which are so cramped and dull,
The baffled hopes, the impulse slow,
Thou takest, touchest all,—and lo!
They blossom to the beautiful.
—Susan Coolidge.

"How many loaves have ye?" It is the Lord's first question; and the hands of those who really want His help search their robes to see what they have hidden there. One brings his joy; another brings his pain; another brings his helpless desire; another has nothing to bring except just his sorrow that he has nothing. It is a poor collection,—only seven loaves and a few little fishes,—but it is enough: His blessing falls upon them, and they come back to the souls which gave them up to Him multiplied into the means of healthy, holy happy life.—Phillips Brooks.

Savings Certificates Popular

That Alberta Government Provincial Savings Certificates are recognized as a sound investment is indicated by the fact that sales during 1928 reached a total of $815,960 over and above all withdrawals. The net purchases during the year were more than double those of 1927. A report for the year by the Treasury Department places the total amount of outstanding savings certificates at $11,264,940. These certificates are held largely by farmers of the province.

"Laugh heartily, speak kindly, and serve willingly," are among a list of health rules issued by Dr. W. A. Daley, Hull, England, medical officer.

No Ground For Pessimism

Statistics Show Large Percentage Of University Graduates Remain In Canada

An independent survey of figures dealing with the whereabouts of our university graduates is somewhat enlightening in the way of refuting exaggerated statements to the effect that they are flocking to the United States. The latest available statistics show that 82.8 per cent. of the living graduates of the University of Toronto are resident in Canada and only 13.6 per cent. in the United States; the University of Western Ontario has retained 80 per cent., while 93 per cent. of the University of Manitoba's graduates have remained in their native country. This story finds a repetition in almost every college in the Dominion. Moreover, many graduates have found their way elsewhere only temporarily and will return in due course. Evidently there is not so much room for pessimism as many have imagined.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep them confined to the house, whose rooms may be overheated or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold suddenly grips him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach; break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Only the office with no salary attached is obliged to seek the man.

The Northward Trek

Homesteaders Show Preference For Land In Northern Districts

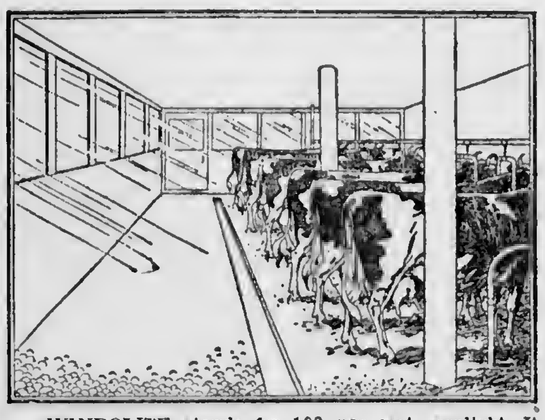
More than half of all the homesteads taken up in Canada last year were in central and northern Alberta; more than one-third were in the Grande Prairie and Peace River land districts. New settlers coming into central and northern Alberta last year increased the population by more than 25,000, while the 8,586 entries represent about 1,373,760 acres of land. The significant feature of all these figures is the northward march of the man intent on taking up land. Much has been said in the last two or three years of the northward trek of the miner, the electrical engineer and the pulp and paper men. But the farmer is heading that way too. And all indications are that 1929 will beat 1928.—Edmonton Journal.

You can't judge a man's status in this country, except to know that if he acts important he isn't.

To Check "FLU," Grippe
Fights the Germs in the Throat Before They Invade Other Parts of the Body.
EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to garble the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE
The Improved Glass Substitute
MADE IN ENGLAND


WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.
Price $1.50 Per Square Yard, f.o.b., Toronto.
Use WINDOLITE and let

COMES WITH A MESSAGE OF HEALTH
THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.
Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.
Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.
Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

YOUR DRUGGIST IS MORE THAN A MERCHANT

Have you ever seriously considered how important to your neighborhood is the druggist? It is a mistake to think of him chiefly as a merchant and only incidentally as a professional man. He spent years in study and more in scientific training before he offered his services to you as a pharmacist.

His store is really an institution safeguarding the health of your community, offering convenience and safety to you and others in your neighborhood. He is a member of a profession worthy of the highest recognition.

You can show your appreciation of his professional services and his faithfulness to scientific ideals by giving him all your patronage.

TO-NIGHT

Friday, March 8th

Adults 50c Children 25c

At The S. of A.

On March 4th Mrs. Nye completed the millinery course given to the first and second year girls. The hats are a credit to both Mrs. Nye's ability as an instructress in millinery and the interest and attentiveness of the girls A short course was also given in flower making, the result being the flowers rivalled nature's own for beauty and coloring.

An exhibit of hats and flowers was held on the afternoon of March 4th. after which tea was served.

Friday night March 8th. will see a game between the Raymond School of Agriculture Basket ball team and the Cardston Intermediates to be staged at Cardston.

Mr. and Mrs. Asplund were visitors to Lethbridge over the week end, and report rather muddy roads, though in seeing "Oliver Twist" one forgot the portending journey home.

Mr. Smith returned from Edmonton on March 2nd. where he was on business during the past week.

March 15th. is the date set apart for the annual Spring Exhibit. The work of the class room and laboratory of the boys and girls is exhibited to the public. We cordially invite everyone to come and see the splendid work which the pupils have accomplished this term. As further incentive tea is being served.

Mr. W. Halsall manager of the Killon district co-operative association was at the school on March 6th. giving several lectures on co-operation from the consumers point of view.

Decoration in honor of St. Patricks is proceeding in the assembly hall in preparation for the Spring Festival and dance to be held on March 15th.

ACES vs AGGIES

On Wednesday evening February 27th. the Aggies were hosts to the Lethbridge Aces in the High School Gym. We are very pleased to report a clean fast game and although our lads were on the short end of the score we were not discouraged as they show an improved brand of ball everytime they go out. Merlin Eaves was watched and checked very closely but at that was able to get 10 counters and to feed Teddy Meeks who was dropping them in at all angles, Meeks scoring 21 points altogether. Bill Bennett while a little unlucky was still the same old reliable Bill and the guards were conspicious by their stiff checking. The final score was 63—36 in favor of the Aces.

Ken Stone of Raymond handled the game to the satisfaction of both teams.

FOR SALE—Three Purebred Barred Rock Cockerels. Large Breed.—apply Mrs Heber Christensen.

Sale Closes March 23 Raymond

Emil Jannings At The Capitol Tomorrow Night

Night....squalor.... filth.... fog....darkness.... slums.... beasts.... dirt.... burly brutes.... sodden women ....Soho riotous revelry.... saw-dust on the floor and then.... suddenly.... into this atmosphere come a man and a girl. She is slight.... pretty.... a light shines from her eye. He is small.... timid afraid. They start playing.... a tambourine and a trumpet.... and praying.

A crash is heard, of glass breaking of a mighty fist bursting through. The music stops. Not a sound is heard. Into the room walks a Colossus of a man. The crowd surges forward, an then back, as he comes closer. He strides forward, takes the salvationist in his iron fist and, tosses him toward the ceiling. A laugh goes up. "Basher Bill" is having another little jest. The girl looks at him, sorrowful, in pity, and yet fascinated. He drops the man, and as the pair pass through the door into the London mist, his eyes follow her. Greedy, grasping, covetous eyes.

Then—but come to the Capitol Theater next Saturday night for Emil Jannings' third American made picture, "The Street of Sin." Mauritz Stiller, the man who made "Hotel Imperial," is said to have created in the new Jannings vehicle something that bids fair to dwarf even "The Way of All Flesh." Fay Wray, Eric von Stroheim's leading women in "The Wedding March," appears as the Salvation Army lass. Olga Baklanova, formerly a member of the Mascow Art Theater, is Annie a creature of the pavements.
